AI Use Disclosure

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
- Stable Diffusion and other AI-based Image Generators;
- Code extensions for IDEs;
- Other tools that are capable of generating text, image, codes, or any other content for the course work. BUT, Grammarly and other grammar checkers are NOT included.

For more information on our policy, please refer to: https://parsa-rajabi.github.io/cmpt-276/#/ai-policy

1. First Name *

Ayana

2. Last Name *

Hussain

3. SFU Student ID *

301543837

4. Which assignment/lab/project submission is this AI use disclosure for? *

Project Milestone #2   ⌄

5. How do you feel about using AI content generators in relation to your person standards of academic integrity for this submission? *

	Completely Acceptable	Somewhat Acceptable	Neutral	Somewhat Unacceptable	Completely Unacceptable
In my personal standard of academic integrity, using AI content generators for this submission is...	○	◉	○	○	○

6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) *

I think using AI to help with the coding, testing, idea generation or debugging is acceptable. Overall it is very difficult to create an entire project with all the requirements outlined in the project description using only AI. However, if one does manage to do this, then I do think that is a violation of academic integrity as the work is not their own.

7. How did using AI content generators impact **your learning** for this submission? *

	Greatly benefited my learning	Somewhat benefited my learning	Had no impact on my learning	Somewhat hindered my learning	Greatly hindered my learning	I did not use AI for this submission
Using AI content generators for this submission...	◉	○	○	○	○	○

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) *

I used ChatGPT to help me write the unit tests. Initially I watched multiple videos and read the Jest documentation but I still had no idea what to do. I asked ChatGPT for some advice for the first few unit tests. This helped me finish writing the other ones and master the syntax/format.

9. For this submission, how would you rate the relative contribution made by your versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Fair
This submission is...	○	◉	○	○	○	○

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) *

I used ChatGPT for testing and debugging assistance. I usually pasted in a part of my code like a small component and asked it for different ways I could approach writing a test case. It would sometimes provide test case examples based on the code. Other times it would generate ideas on which parts I could go about testing. Similarly, whenever there was an error in the terminal or given by Next.js at runtime I would look up the error and if I couldn't see the solution, I would ask ChatGPT for assistance. I would paste the error message and sometimes give it parts of the code that I thought could be causing the error or warning.

11. How confident were you in AI's responses that you received? *

○ Confident

◉ Somewhat confident

○ Neutral

○ Somewhat not confident

◯   Not confident

◯   I did not use AI for this submission

12. **How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) ***

To ensure the response was correct, I would glance over the response for a general idea, then paste the code into my file and restart the server. If the error disappeared then I would analyze the code and try to understand exactly how the error was resolved. For the testing aspect, I would try to understand the test case provided by ChatGPT or how it modified/added onto mine by altering different parts of my original test to see if it would pass. ChatGPT usually gave me test cases that would fail since it did not have access to the files with the implemented components, so I had to take this step in order to write the first few and ensure they pass.

13. **Did you at any point abandon using AI tools and seek other resources? Explain your answer. ***

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

Yes. ChatGPT did not have all the answers. Oftentimes there were Next.js or testing errors that ChatGPT had no idea about. It would direct me to very old or depreciated elements and I would start researching from there about similar hooks or testing features from the react-testing library, or whatever was potentially causing the error. It offered a good place to start researching but sometimes it only led me to a dead end, and I was forced to debug from scratch.

14. **For each of the following items, how would you rate the relative contribution made by you versus AI? ***

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
Writing - Proofreading: To revise written work for grammar, typos, style,	⦿	◯	◯	◯	◯	◯

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
and other related items						
Writing - Text Completion: To complete sentences, paragraphs or even entire documents	●	○	○	○	○	○
Writing - Text Ideation: To generate new ideas, concepts; and examples for writing submissions	●	○	○	○	○	○
Text analysis: To make sense of text and generate insight as to what it means	●	○	○	○	○	○
Summary: To quickly understand large amount of	●	○	○	○	○	○

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
text by extracting important information						
Q&A + Research: To get answers from questions and find relevant information	◉	○	○	○	○	○
Illustration /Sketching: To create visual representations of concepts and ideas such as diagrams, charts, illustrations	◉	○	○	○	○	○
Coding - Write: To generate code by AI for software implementation	○	◉	○	○	○	○
Coding - Test: To generate code tests	○	◉	○	○	○	○

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself	Not applicable
by AI for software implementation						
Coding - debug: To identify issues with existing code for software implementation	○	◉	○	○	○	○
Coding - explanation: To understand what a code snippet does for software implementation	○	◉	○	○	○	○
Other: to help any other aspects of the submission not listed above	◉	○	○	○	○	○

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

I used ChatGPT to help me understand errors and warnings when they would occur. I also used it to help me write the first few Jest unit tests, this helped me finish writing the other ones by following a similar method and format. If ChatGPT gave me code that looked outdated or used aspects of libraries that I had not heard of, I would ask it to further clarify each step of its test.

16. Please leave any further comments above use of AI tools for this submission / CMPT 276

No further comments, thank you.
